(54) Title: A METHOD AND DEVICE FOR SERVICE BRAKING

(57) Abstract: Service braking of a vehicle can be carried out by means of a service brake actuator (3) having an electric motor as its service brake applying means. Energy from a loaded spring in a spring brake actuator (6) connected to the service brake actuator can be released at will for supplying supplementary service brake energy to the service brake actuator.

(54) BENÄMNING Sätt och anordning för servicebromsning

(57) SAMMANDRAG

Servicebromsning av ett fordon kan ske med hjälp av en servicebromsaktuator (3), vilken har en elektrisk motor som sitt servicebromsansättande organ. Energi från en laddad fjäder i en fjäderbromsaktuator (6), som är ansluten till servicebromsaktuatorn, kan frigöras med vilje för att tillföra tillskottsservicebromsenergi till servicebromsaktuatorn.
